

Manage Account Missing Problem Fix Solution

Before you modify airepos.mdb, please make copy and save somewhere else so later you damage database and you can copy it back

Step 1. Employee Table

More.....

Step 2.

You see there is Temp manager account

Microsoft Access - [Employees : Table]

File Edit View Insert Format Records Tools Window Help

Type a question for help

EmployeeID	Social Security	First Name	Middle Name	Last Name	AccessCode	Title	Email Name	Address	City	State
21		Temp Manager		Temp Manager	123456		Temp Manager	none	none	
31	0 - -	staff1		Jeff	123		Staff1	nonenone	none	NY

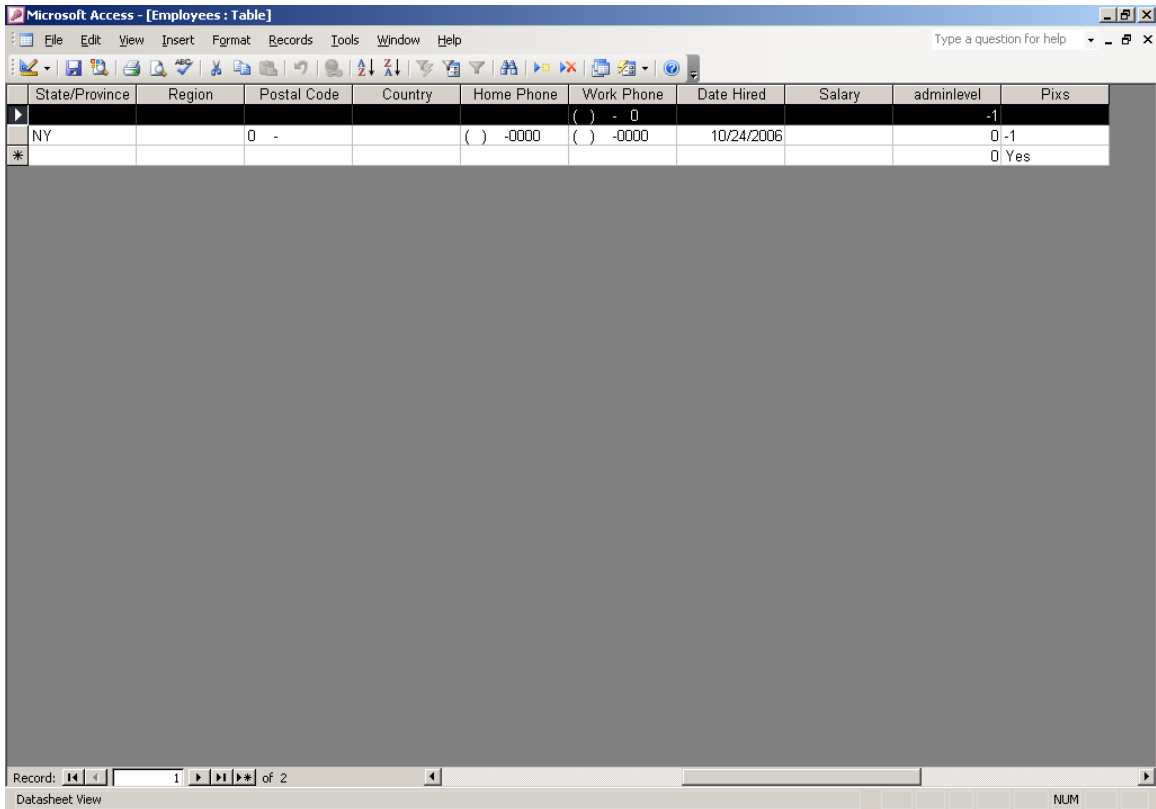

Record: 1 of 2

Datasheet View

NUM

More.....

Step 3. See that adminlevel value

State/Province	Region	Postal Code	Country	Home Phone	Work Phone	Date Hired	Salary	adminlevel	Pixs
NY		0 -		() -0000	() - 0	10/24/2006		-1	0 -1
*								0	Yes

Try open airepos.mdb and input a new line like that.
By the way, employeeID is generate automatic so no input.

That's about it.

Any problems, let me know and I will try my best to help you out.
